

Vashon Island School District Menu June

The Vashon Island School District and Experience Food Project are proud of our accomplishments this school year. We are committed to providing healthy, nutritious and flavorful meals that support local and regional food systems. Our approach is focused on integrating whole and minimally processed foods and food items free from additives, colorings and artificial ingredients.

Thanks to all of you for your support, we look forward to even more improvements during the 2011-12 school year!!
