

Dear Families,

In an effort to distribute information to our families in the timeliest and most cost efficient manner, we strongly encourage the use of email for communication purposes. Email not only saves postage and paper costs but time as well. Keeping our office expenses to a minimum means more money for enrichment classes and other activities. Naturally, we are happy to accommodate those who don't have access to email and require printed copy by postal delivery.

Please select one of the following options:
