

Co-curricular Activities

Co-curricular activities are those academic and athletic activities that enhance and extend our students' school days. We specifically named these activities "co-curricular" as opposed to "extra-curricular" because the prefix "co-" implies these activities have an equal value in helping prepare our students for their futures. The prefix "extra-" implies they are additional activities that our school district could do without. Our students will not go without. Funding for advisors/coaches salaries and benefits as well as a major portion of travel, officials and equipment expenses are paid for out of our district's general fund. Our students learn great lessons through their participation in these co-curricular activities, and for some, the participation in co-curricular programs inspires them to stay in school and to work harder in the classroom.
