Descriptive Guide of State and Federal Regulations

Annually, each school district in the State of Washington has an obligation and is required by law to publish a “DESCRIPTIVE GUIDE”, which is to be made available for examination by the public. In an attempt to make the data readily available to the public at large, our district has published information on its web site. This information is provided to meet State requirements. Ahera Management Plan (Asbestos)

In compliance with regulations, the Vashon Island School District maintains a copy of the Asbestos Hazard Emergency Response Act (AHERA) Management Plan at each school and the Facility Manager’s office.

Asbestos in school facilities exists as follows:

• Chautauqua Elementary School is asbestos free.
• McMurry Middle School has some exterior panels on the fascia that contain asbestos.
• All High School buildings are now asbestos free; with the exception of the gym that has muddied pipe fittings in various areas in that facility.
• The Administration Office is asbestos free.

Through initial concerted efforts and capital improvements, the existence of asbestos has been dramatically lowered in the district. To assure no change in existing conditions, school facilities which contain asbestos are inspected every six months.

Questions and/or concerns may be directed to the district’s Designated Asbestos Coordinator, John Aune, at 463-5110.

Compulsory Attendance Law

RCW 28A.225.010

Parents/guardians of any child eight (8) years of age and under eighteen (18) years of age shall cause such child to attend school and such child shall have the responsibility to and therefore shall attend for the full time when such school may be in session unless the child is enrolled in an approved private school, an educational center as provided in chapter 28A.205 RCW or is receiving home-based instruction.

The school district superintendent may excuse certain students due to disability or other specified circumstances. Some exceptions are applicable for children aged sixteen (16) or older.

Complete details of the attendance law are provided in the Common Schools Manual, which can be reviewed in the school district’s administration office.

Rights Under Family Educational Rights and Privacy Act (FERPA) and Opt-Out Form for Elementary and Secondary Institutions

The Family Educational Rights and Privacy Act (FERPA) affords parents and students over 18 years of age (“eligible students”) certain rights with respect to the student’s education records. They are:

1. The right to inspect and review the student’s education records within 45 days of the day the District receives a request for access.

   Parents or eligible students should submit to the school principal (or appropriate school official) a written request that identifies the record(s) they wish to inspect. The principal will make arrangements for access and notify the parent or eligible student of the time and place where the records may be inspected.

2. The right to request the amendment of the student’s education records that the parent or eligible student believes are inaccurate or misleading.

   Parents or eligible students may ask Vashon Island School District to amend a record that they believe is inaccurate or misleading. They should write the school principal (or appropriate school official), clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.

   If the District decides not to amend the record as requested by the parent or eligible student, the District will notify the parent or eligible student of the decision and advise them of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent or eligible student when notified of their right to a hearing.
(3) The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board; a person or company with whom the District has contracted to perform a special task (such as an attorney, auditor, medical consultant, or therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his/her professional responsibility. Upon request, the District discloses education records without consent to officials of another school district in which a student seeks or intends to enroll.

(4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA.

The Office that administers FERPA is:

- What undergraduate or graduate degrees the teacher holds, including graduate certificates and additional degrees, and major(s) or area(s) of concentration.

Questions can also be asked about paraprofessionals working with the child in reading, writing, and/or mathematics, and whether the paraprofessional meets state qualifications and/or licensing requirements.

Responsibilities, Rights and Due Process

The Vashon Island School District, Board of Directors and staff acknowledge students’ full rights and responsibilities of citizenship consistent with federal, state, and local law, and rules and regulations established by the district. The district’s “Responsibilities, Rights and Due Process” brochure is provided to all students annually per State law. Due to continued changes in the law, additional adjustments are made to the brochure, when required.

The brochure is designed to tell students about their and others’ responsibilities, rights they share with all others, and general rules to follow so as to take full advantage of their educational opportunities without experiencing major discipline problems.

State law “prohibits use of all tobacco products on public school property.” In compliance with this law, the School Board adopted policy and is in full support of the State’s position to protect children in the public schools from exposure to the addictive substance of nicotine.
